

Brilliant performance by students guided by Nyas

Considering the inadequate educational infrastructure of rural Rajasthan Nyas decided in the year 2009 that a few promising students of VIIIth standard should be guided for Secondary Board Examinations.

Six students were selected by Nyas under the scheme and were monitored. They were put under the supervision of best available faculty. Nyas paid for their special coaching program as well as for the other expenses related with academics. Besides, Nyas also helped the needy students in paying their mess bills as the motto of Nyas has been- Give a helping hand to deserving students, so that their dreams become a reality.

In recently declared Secondary School results by Rajasthan Board the students have proved that they are like uncut diamond-that needs a little polishing to dazzle. One of these students has secured 11th rank in Jodhpur district among more than 50,000 students who had appeared in the district for tenth standard exams. Two students have secured more than 90% marks and three above 88%. It is a great achievement considering the background from which they had come.

Nyas is proud of their achievements. Nyas cannot forget the contribution of S/Sh. (Dr.) K.L. Rajpurohit(Khandap), Kishor Singh Rajpurohit (Aauaa) and Hanuman Singh Rajpurohit (Kharabera) in helping the students to achieve their goals.
